

EXPERIENCE THE DIFFERENCE
THE ELIZABETH DIFFERENCE.

COMPRESSION TOOLING

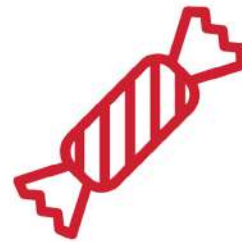

High Precision, Superior Quality Punches and Dies Engineered for a Wide Range of Powder Compression Industries.

Pharmaceutical

Nutraceutical

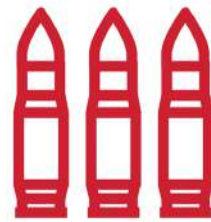

Confectionery

Cannabis

Batteries

Munitions

Catalysts

Detergents

Inflation & Propellants

Dependable Performance & Service Excellence

Our design, engineering, customer service, manufacturing and quality assurance departments are unequalled in the industry. Custom CAD/CAM systems decrease engineering and production time to allow for perfect repeatability and interchangeability of even the most complex tooling.

The latest advanced equipment permits our experienced engineers, designers and machinists to constantly achieve higher quality and delivery standards. From prompt replies to solving sophisticated tablet production challenges, The Elizabeth Companies assure complete customer satisfaction.

Global Footprint

- Manufacturing centers in America, Europe and Asia
- State of the art technology and machinery
- Network of experienced sales staff

Innovative Products

- Punches and dies are produced from the highest quality tool steels, carbide and ceramic from the world's finest suppliers
- Elizabeth's pioneering Triple-E  Interchangeable Tooling greatly decreases press set-up time and chances for error
- ELIZATAB™ tablet simulation for fast, economical tablet prototyping
- Multi-tip / multi-cavity die technologies for increased production output on the same press

Quality Service

- Stringent quality assurance requirements with complete inspection reports provided with all tooling
- Dynamic force analysis (FEA) used to provide optimum designs for efficient tablet production
- Anticipate and avoid customer problems with detailed pre-order analysis by experienced customer service team

"We do not simply take orders; we help our customers make good decisions."

The Elizabeth Companies understand all aspects of the tableting process because we have dedicated ourselves to providing world-class quality tooling and machinery to the Pharmaceutical industry for more than 60 years. We have strived to achieve an unequalled level of customer service, satisfaction, communication and trust with our customers. Our advanced technology is the result of identifying our customers' needs and creating cost-effective solutions.
